Welcoming and satisfying tourists arriving in our ports is our job.

Promoting our land and sharing its beauties is our aim.

SPRING IN MAREMMA

Porto Ercole

Biking on Monte Argentario

The first scent of Spring makes us wish to spend some time outdoors. Go biking is excellent to discover our peninsula, when the hidden coves and the pebble beaches are still out of season.

We suggest you two interesting routes:

The ring of Porto S. Stefano, 20 km by city bike enjoying the panorama along the Panoramica Road.

The Tour of Argentario, 45 km around the peninsula by e-trail bike. The guided itinerary lasts about four hours, with a stop for a snack, and crosses through the two small towns of Porto S. Stefano and Porto Ercole.

Bike rental and guide opportunities are on disposal.

Monte Argentario

Porto Ercole is situated along the south coast of Monte Argentario peninsula. The small port, joyously crowded in Summer, naturally welcomes its guests with services, shops and coffee bars. The big forts of Forte Filippo, Forte Caterina and La Rocca stand overlooking the harbour, and remind its Spanish past.

At the end of the port is the old town centre, a maze of alleys, old houses decorated by flowersbeds and the old church, still conserving the old Spanish governors graves, at the top of the hill.
